

Bio: 2 years of experience in Tech | 4+ years in project management | 3+ years of entrepreneurship experience

PERSONAL PROJECTS

My Personal Website is a website to show off my skills and the things I've built. I deployed the site on Heroku.

- **Stack:** *Python, Flask, SQLAlchemy, WTFforms, smtplib, HTML5, CSS3 (Bootstrap), Heroku*

Image Watermarking Desktop App - Personal Desktop to upload images and add a watermark.

- **Stack:** *Python, PIL, GUI Tkinter, sys*

Breakout Game is a simple game similar to Pong where you use a ball and paddle to break down a wall. For each level passed, points are recorded, and the speed of the ball increases.

- **Stack:** *Python, Turtle Graphics Module*

Work Friendly Places is a website that lists cafes with WiFi and power for remote working. Users can add places themselves, passed data will be saved in the database.

- **Stack:** *Python, SQLAlchemy, REST API, Flask, Ninja, HTML5, CSS3*

Coffee shop App is an app for small craft coffee shops, where owners can create and add their unique recipes to the menu and control an inventory.

- **Stack:** *Django, Python, SQLite, REST API, HTML5, CSS3 (Bootstrap)*
-

PROFESSIONAL EXPERIENCE

Technovation Girls Kyrgyzstan | **Remotely** | **Mentor (Feb/2021 - Present, 1 year 4 months)**

- Volunteering as a business mentor for 14 to 18 years old girls who want to implement social projects using technologies.

High Technology Park of the KR | **Kyrgyzstan** | **Personal Assistant (May/2018 - Feb/2020, 1 year 9 months)**

- Streamlined all business processes in the organisation led to a 50% reduction in time spent on document management, 99% timely submission of financial reports by stakeholders and 100% error reduction related to regulatory and legal compliance.

Legal Clinic Adilet (UNHCR project) | **Kyrgyzstan** | **Livelihood Specialist (Jan/2017 - Dec/2017, 1 year)**
